About Us

Our mission is to create a fun environment for learning coding for your child and we do that by personalizing our program according to their skills, potential and interest.

Our interactive story based learning allows kids to learn basics with easy block-based coding challenges before seamlessly transitioning to real-world text-based languages like Java, Python etc.

What we do?

1 **Block Programming With Scratch**
For Kids Of 8+

2 **Software Game Development**
For Kids of 8+

3 **Sequential Thinking**
For Kids of 9+

4 **Creating Smart Gadgets With Micro:bit**
For Kids of 9+

5 **Creating/Programming Robots**
For Kids of 10+

6 **Script Programming With Python**
For Kids of 11+

7 **Web Development**
For Kids of 12+
